Dear Bert:

I have inquired with Jerry concerning your 11 May 1955 letter asking for military production specifications. The three documents referred to fill several very large volumes. I suggest your quickest source for the sections you may need would be the Air Force technical representative at your factory who can probably get them from the San Bernardino depot. If this poses a special problem, I can get them here but would prefer reference to specific documents in these volumes which you need.

Sincerely,
